**Assignment 02**

Build the following web site which is regarding a aquarium. This web site contains four main pages. They are, home page, explore page, reservations page and learn page. You can use necessary HTML tags and CSS styles. Do not create the layout using html tables.Please use the provided images. Put all of them inside a folder named 'images' when you use them in the project.

**Home.html**

When you click on this text page should scroll up to its original position.

More..
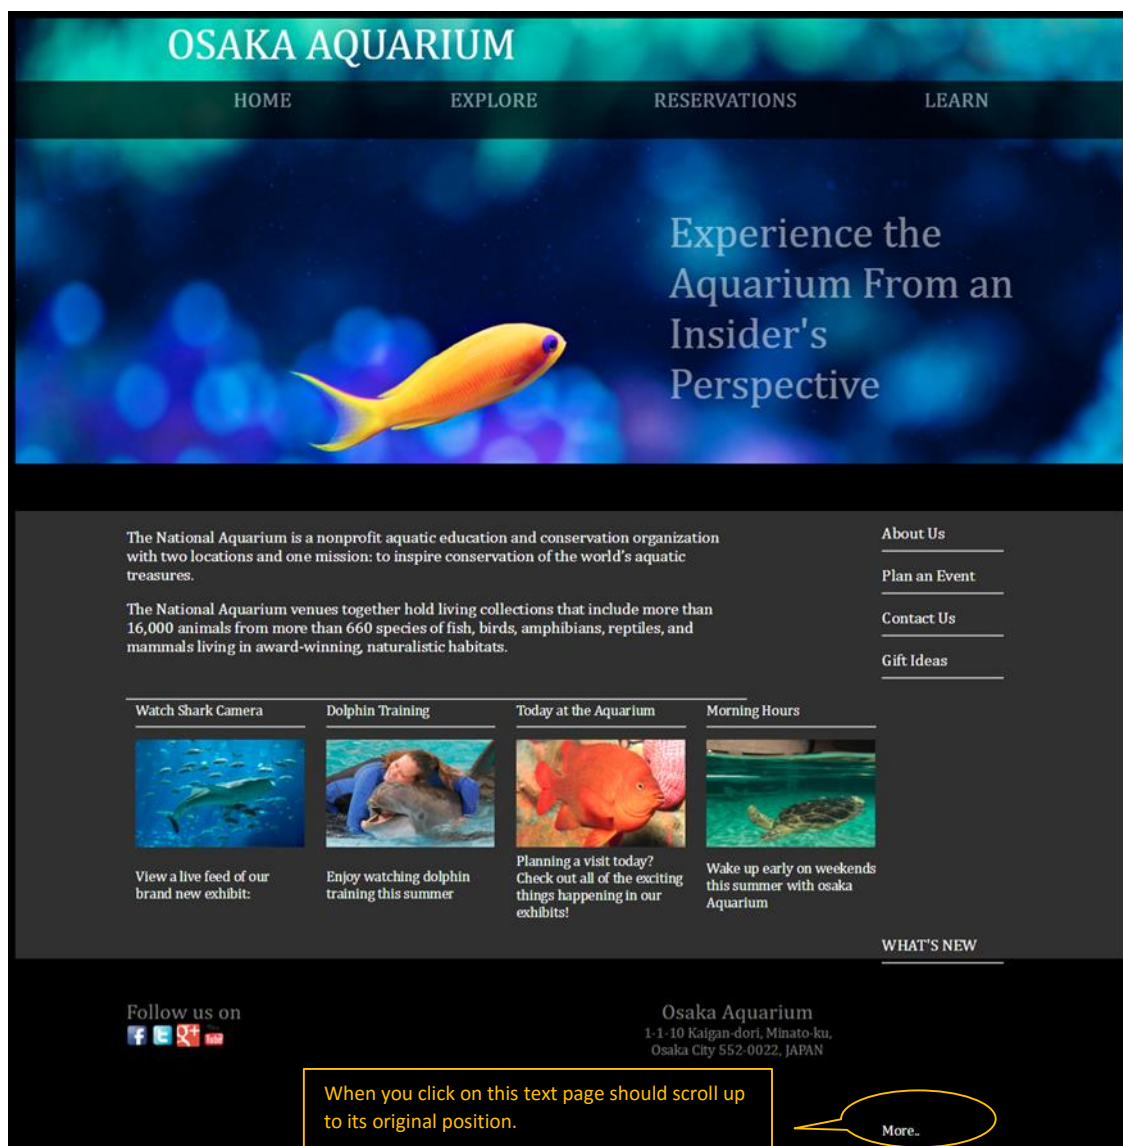

**Text :**

The National Aquarium is a nonprofit aquatic education and conservation organization with two locations and one mission: to inspire conservation of the world's aquatic treasures.

The National Aquarium venues together hold living collections that include more than 16,000 animals from more than 660 species of fish, birds, amphibians, reptiles, and mammals living in award-winning, naturalistic habitats.
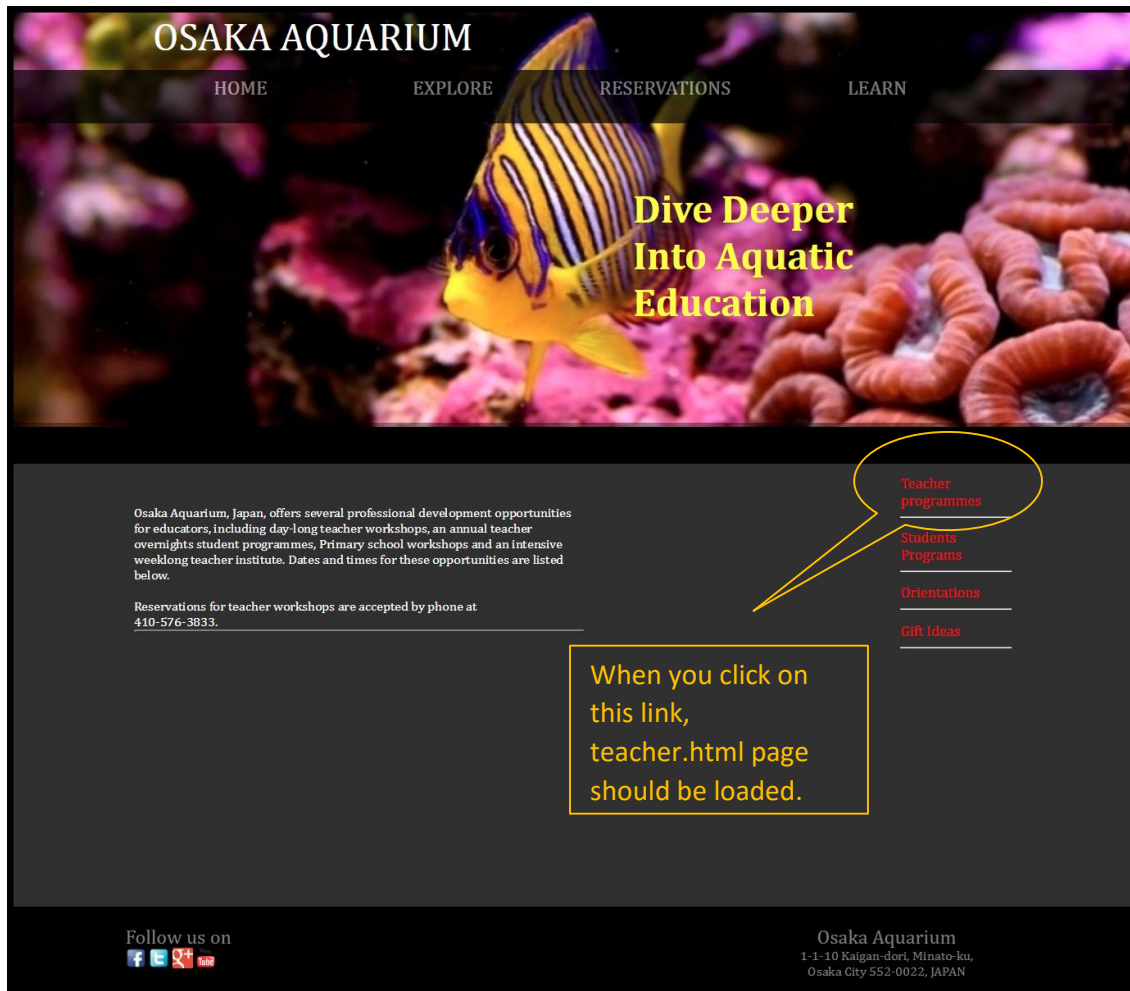

**Explore.html**
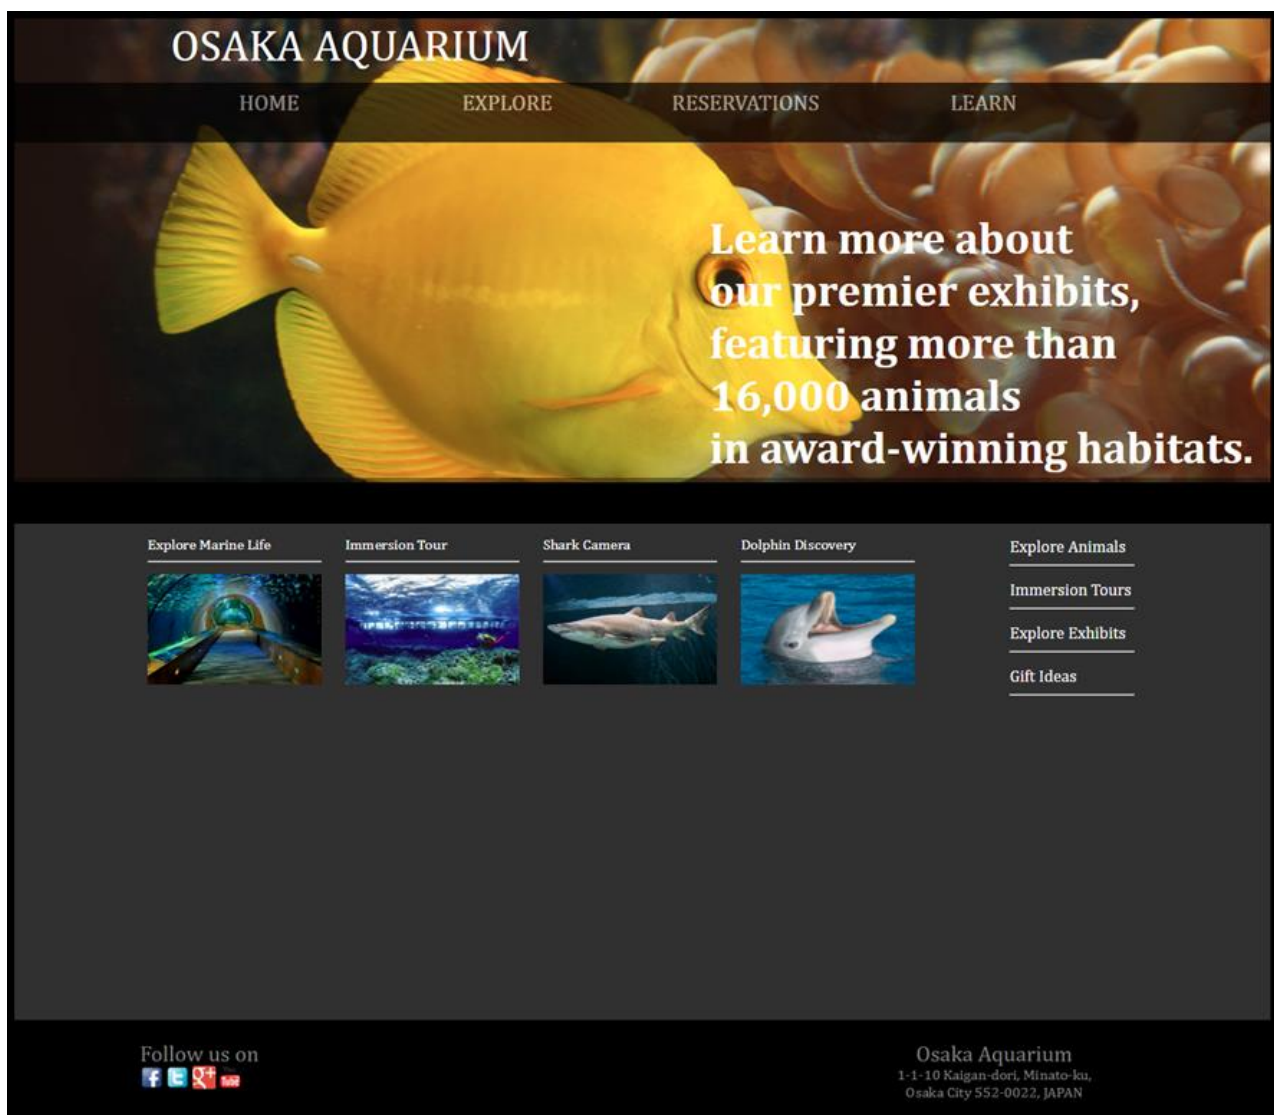

**Reservations.html**

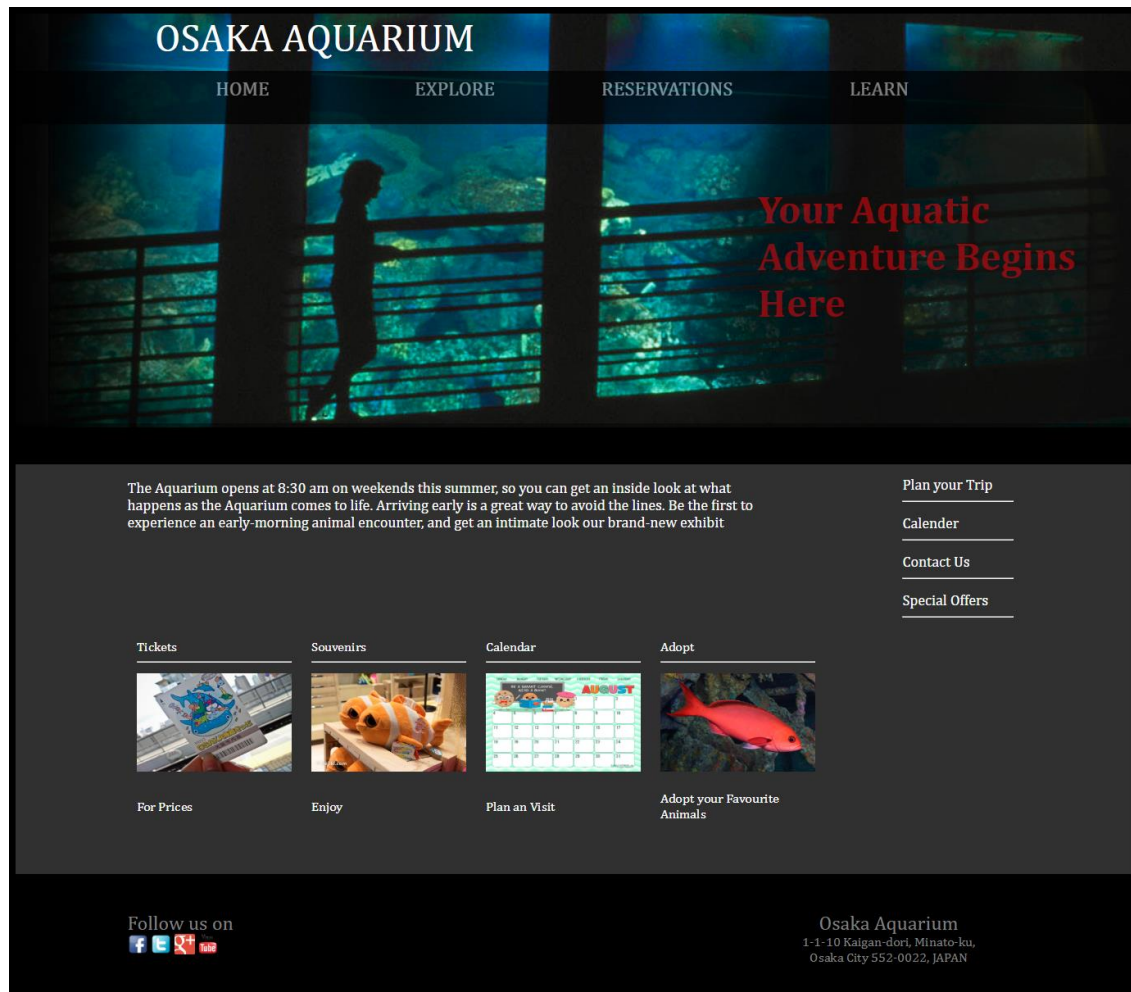

**Text:**

The Aquarium opens at 8:30 am on weekends this summer, so you can get an inside look at what happens as the Aquarium comes to life. Arriving early is a great way to avoid the lines. Be the first to experience an early-morning animal encounter, and get an intimate look our brand-new exhibit

**Learn.html**

**Text:**

Osaka Aquarium, Japan, offers several professional development opportunities for educators, including day-long teacher workshops, an annual teacher overnights student programs, Primary school workshops and an intensive weeklong teacher institute. Dates and times for these opportunities are listed below.

Reservations for teacher workshops are accepted by phone at

410-576-3833.

- The link "Teacher Programs" is linked to Teacher.html given below.
